East West University

What Is The Project?

- EcoTreasure is a mobile app aimed at promoting sustainability.
- Focuses on DIY, recycling, and upcycling of waste materials.
- Empowers users to create, share, sell, and learn sustainable practices.

Objectives

- Promote eco-conscious living.
- Enable easy sharing and discovery of upcycling ideas.
- Build a community for sustainable DIY creators.
- Encourage the reuse of waste through creativity.

App Purpose

1. Inspire users to turn trash into treasure.
2. Could you provide DIY tutorials and project ideas?
3. Connect users with local eco-friendly shops.
4. Offer a marketplace for selling handmade recycled goods.

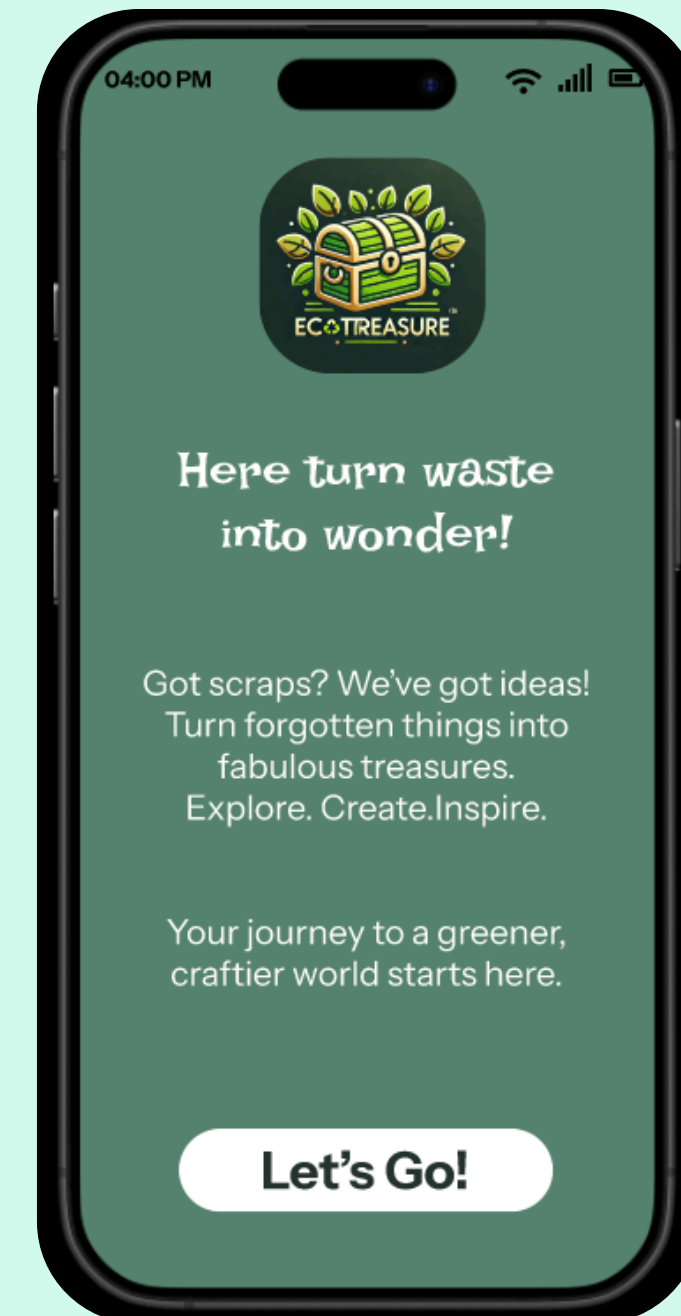

App Pages Overview

- Welcome Screens
- Signup & Login
- Home (Posts from users)
- DIY Tutorials (Video-based learning)
- Marketplace (Sell/Buy DIY Products)
- Local Shops Info
- Event Listings (Craft Fairs, Melas)
- Journal (Write or Read Articles)
- My Profile Page
- Messaging & Settings

Key Features

Welcome Page: Engaging logo animation, personalized journey start.

Key Features

Secure User Auth: Easy Signup/Login with email and password.

Key Features

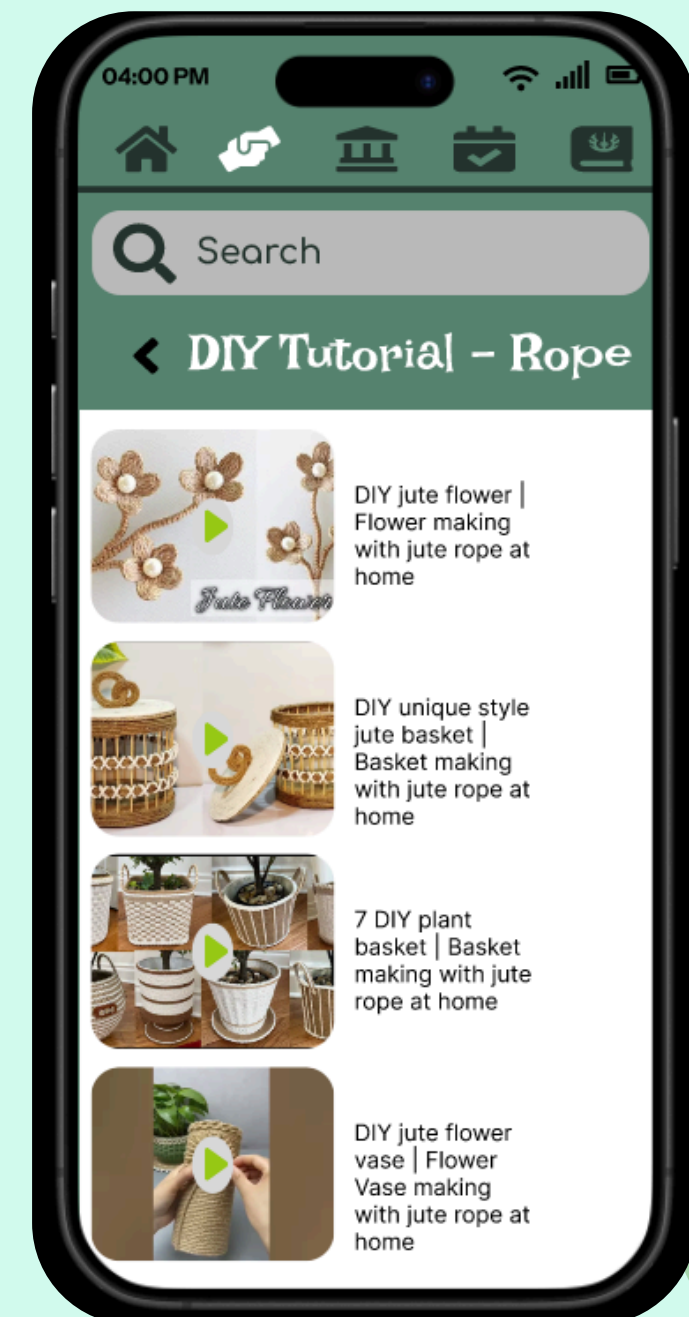

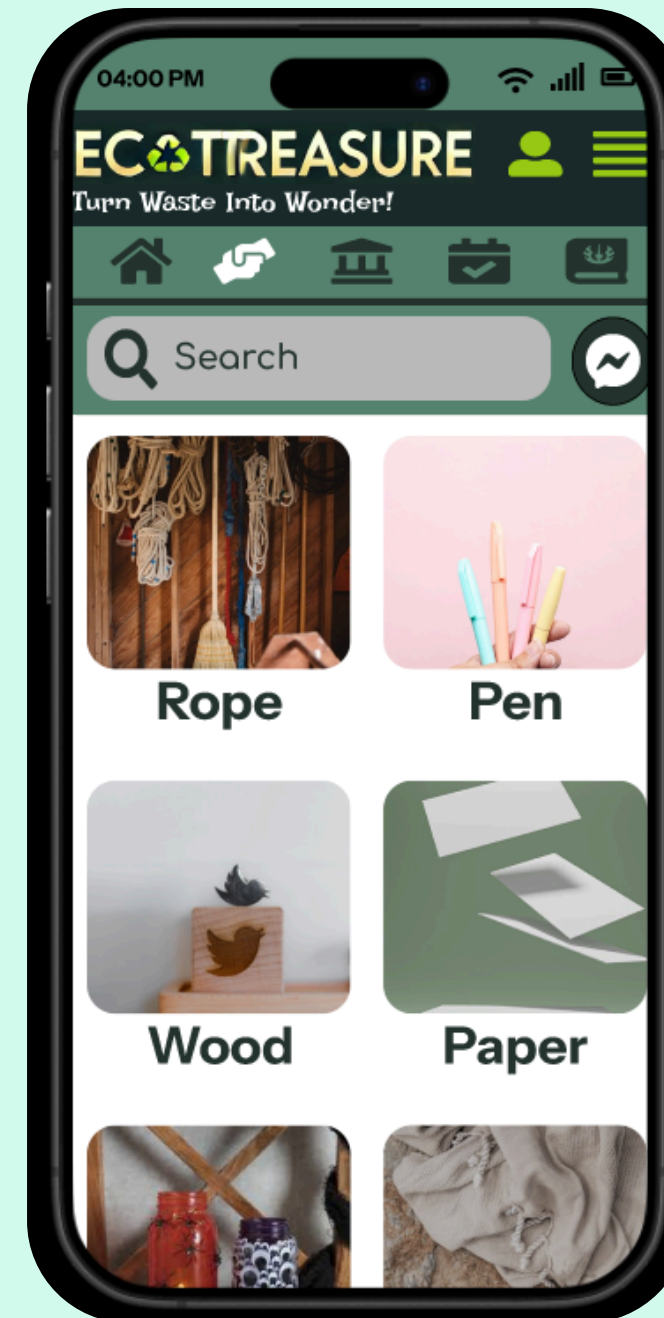

Interactive Home Feed: View other users' upcycled product posts.

Key Features

DIY Tutorials:

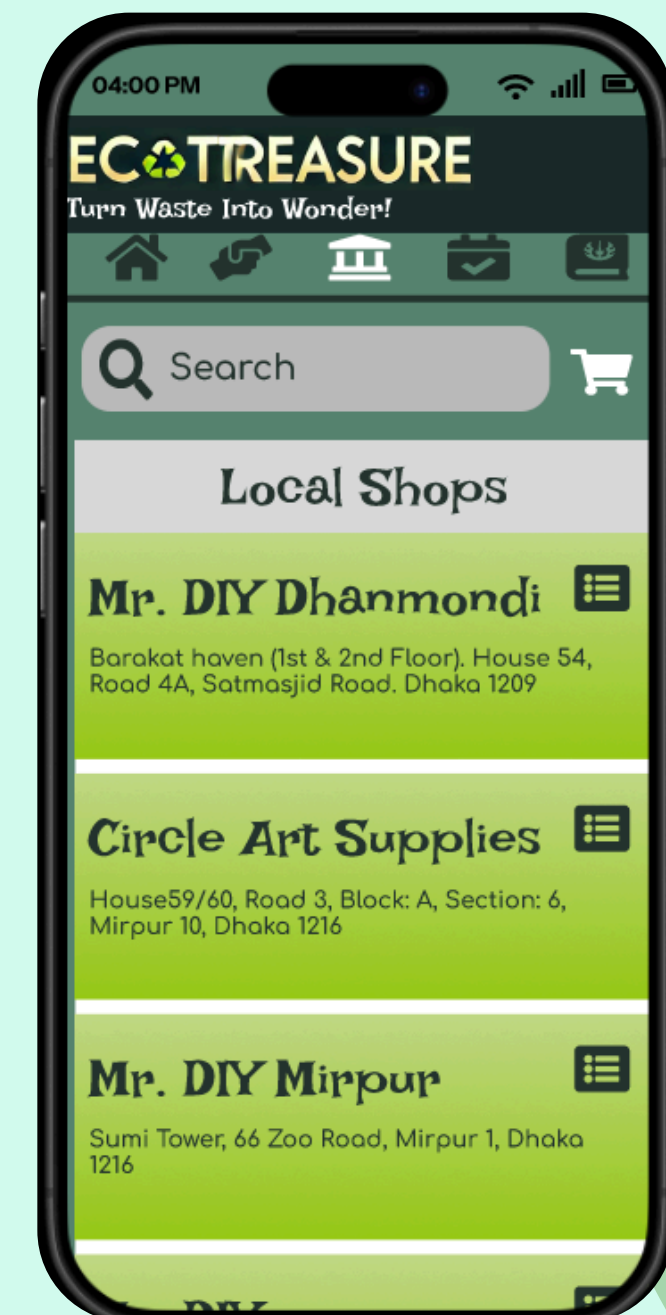

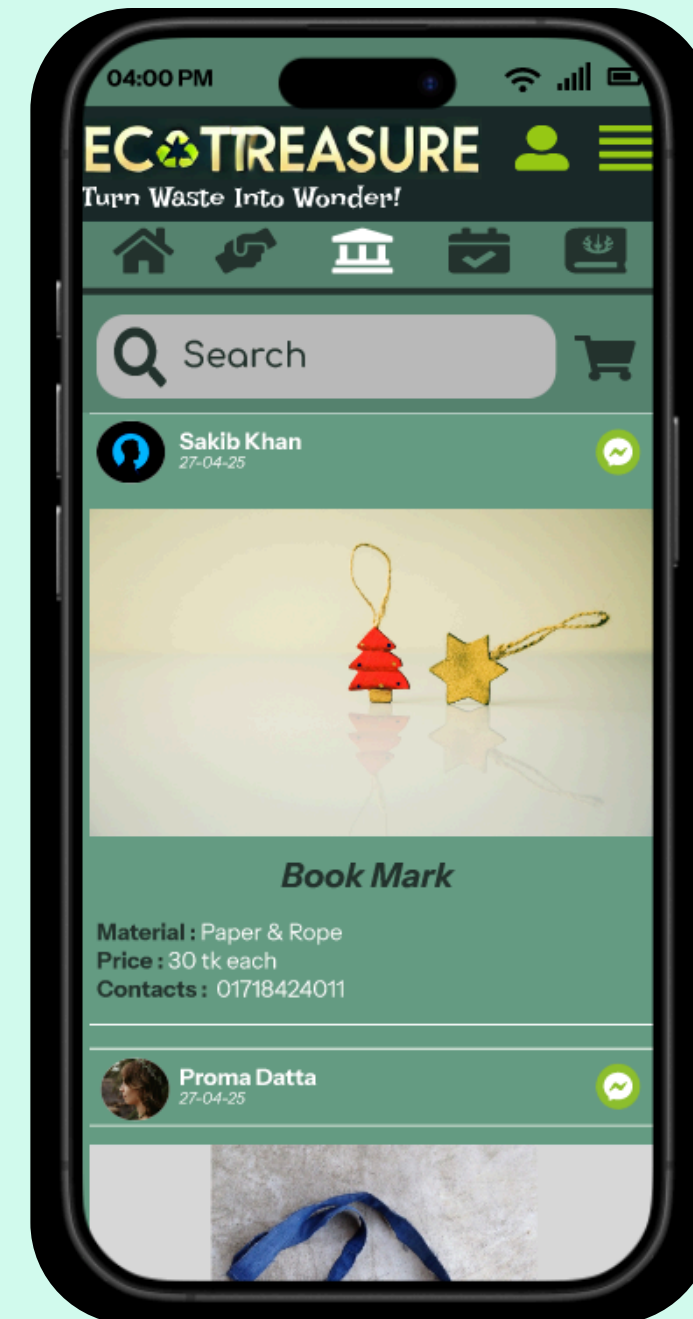

- Material-specific (e.g., rope, plastic).
- Video-based guides with back navigation.

Key Features

Marketplace:

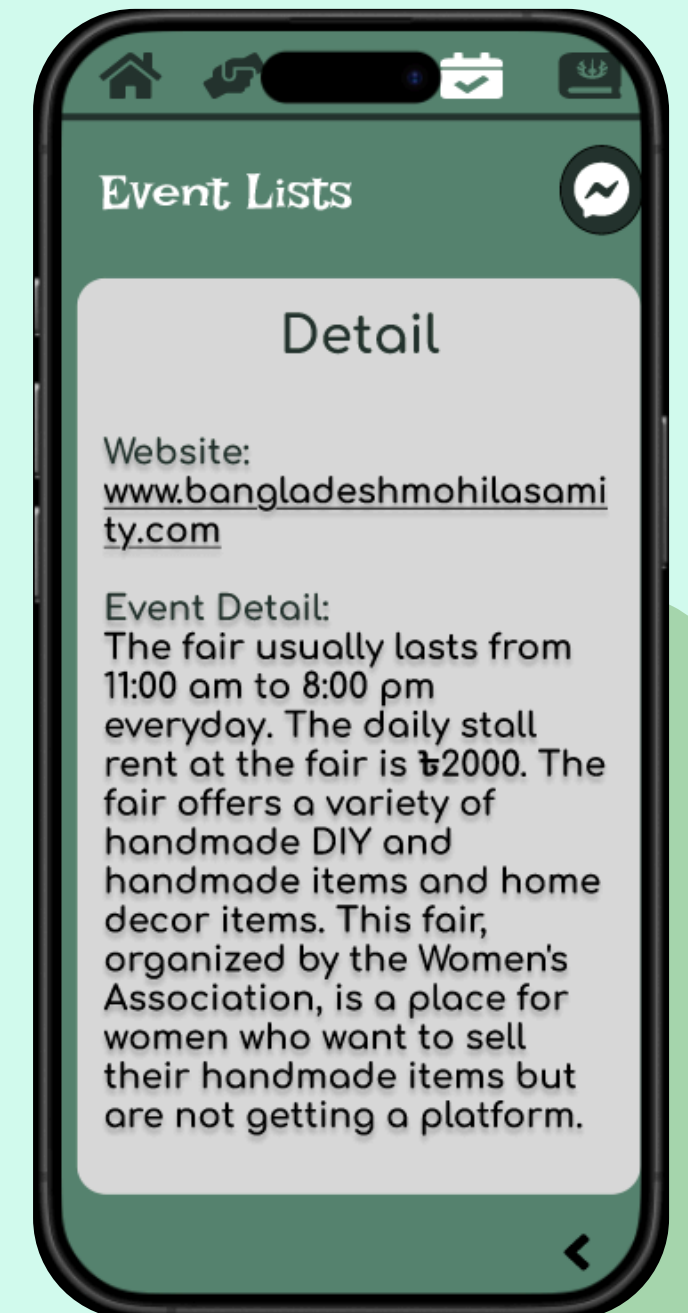

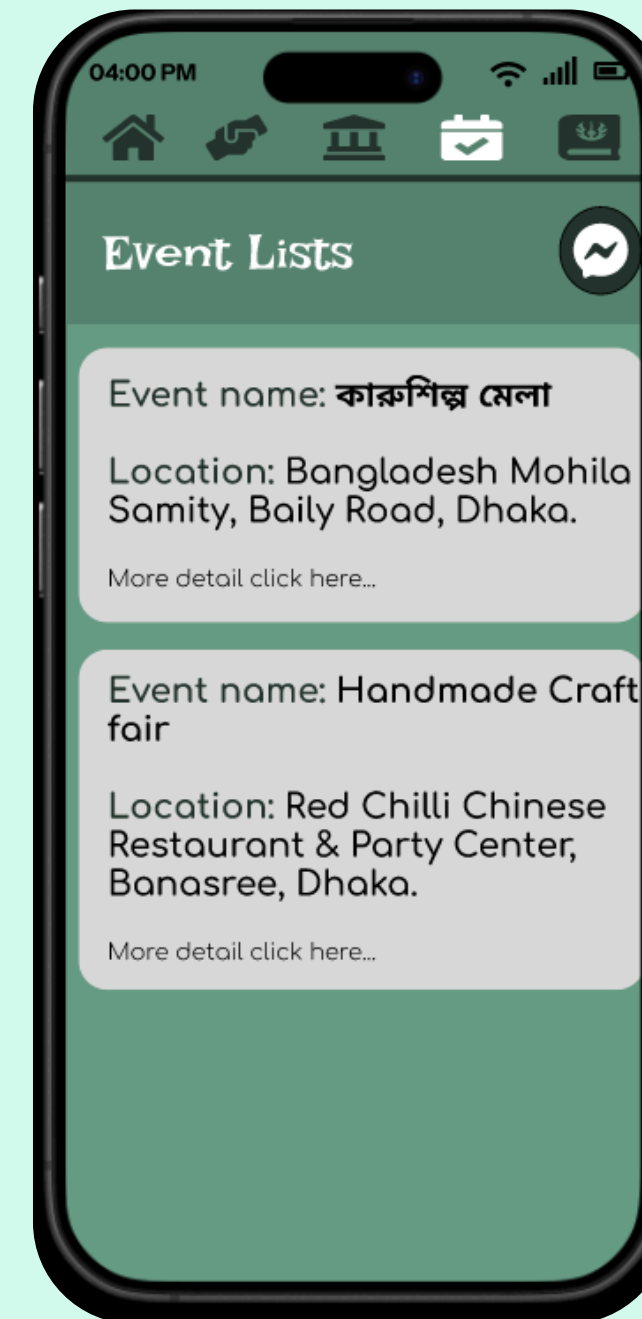

- Buy/Sell user-created DIY products.
- Local shop info button showing nearby eco-friendly stores.

Key Features

Events Page:

- View upcoming craft fairs and melas.
- Helps users find platforms to showcase products.

Key Features

Journal Section:

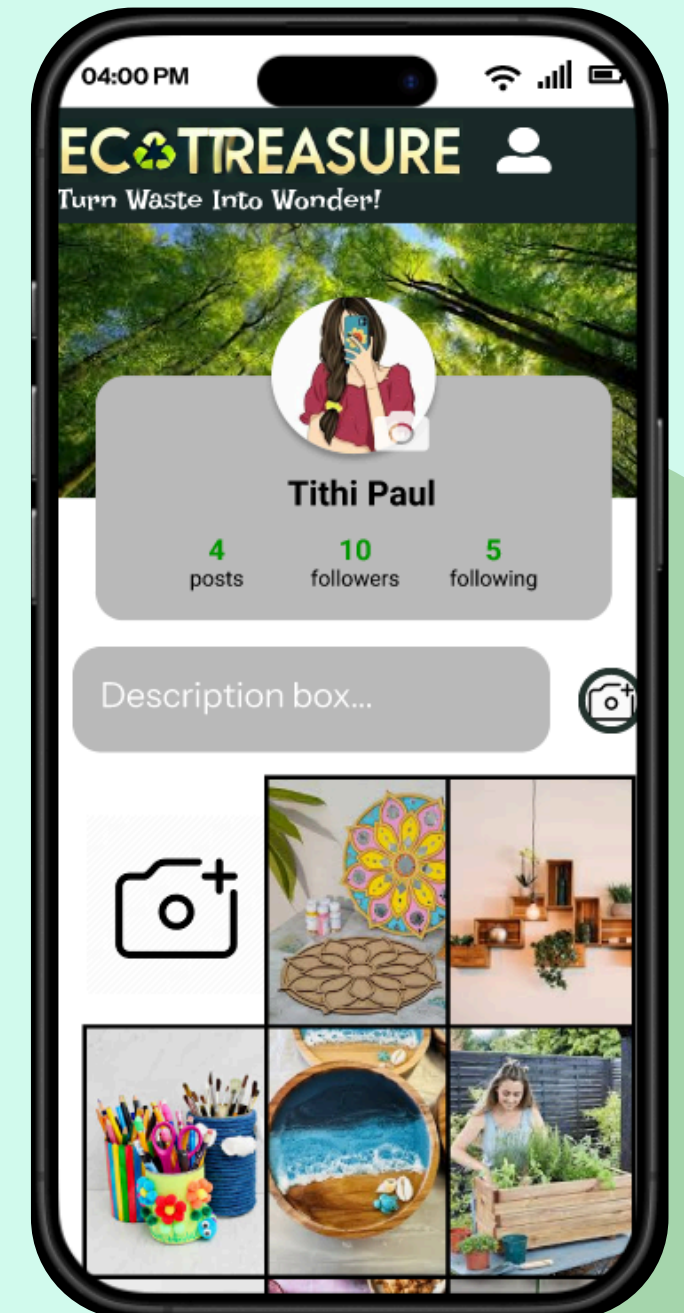

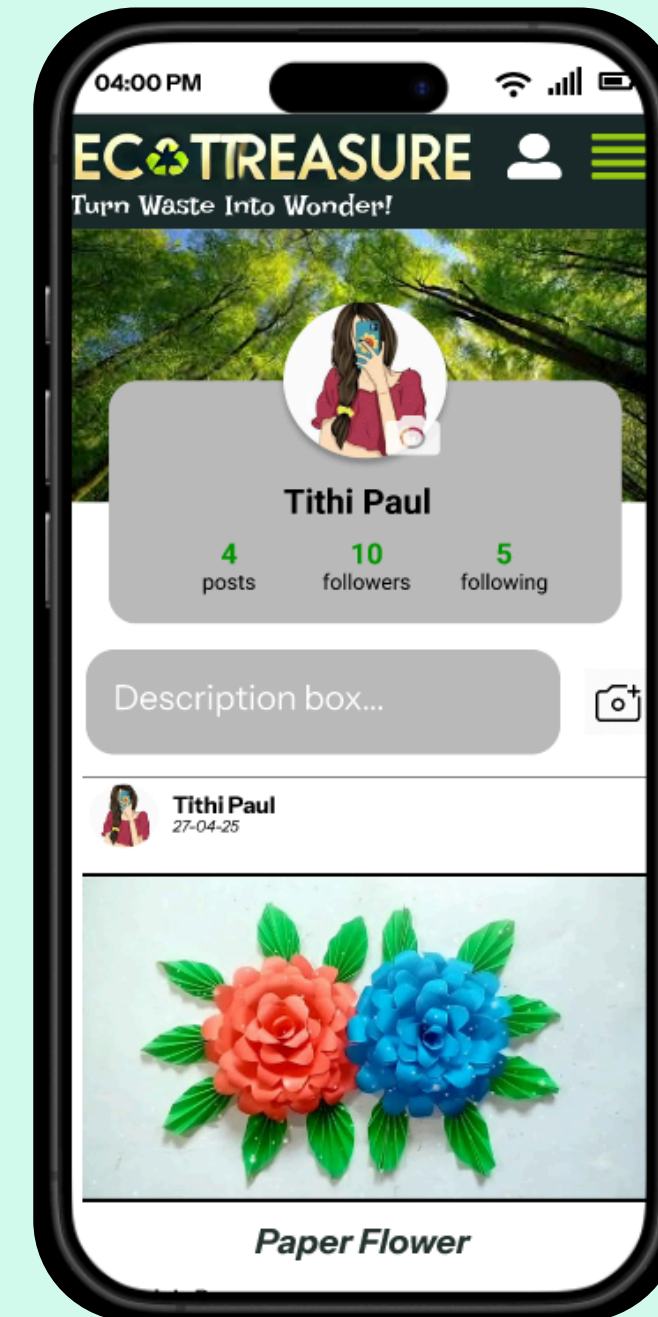

- Write personal eco-stories.
- Read curated articles and research papers via shared links.

Key Features

Profile Page:

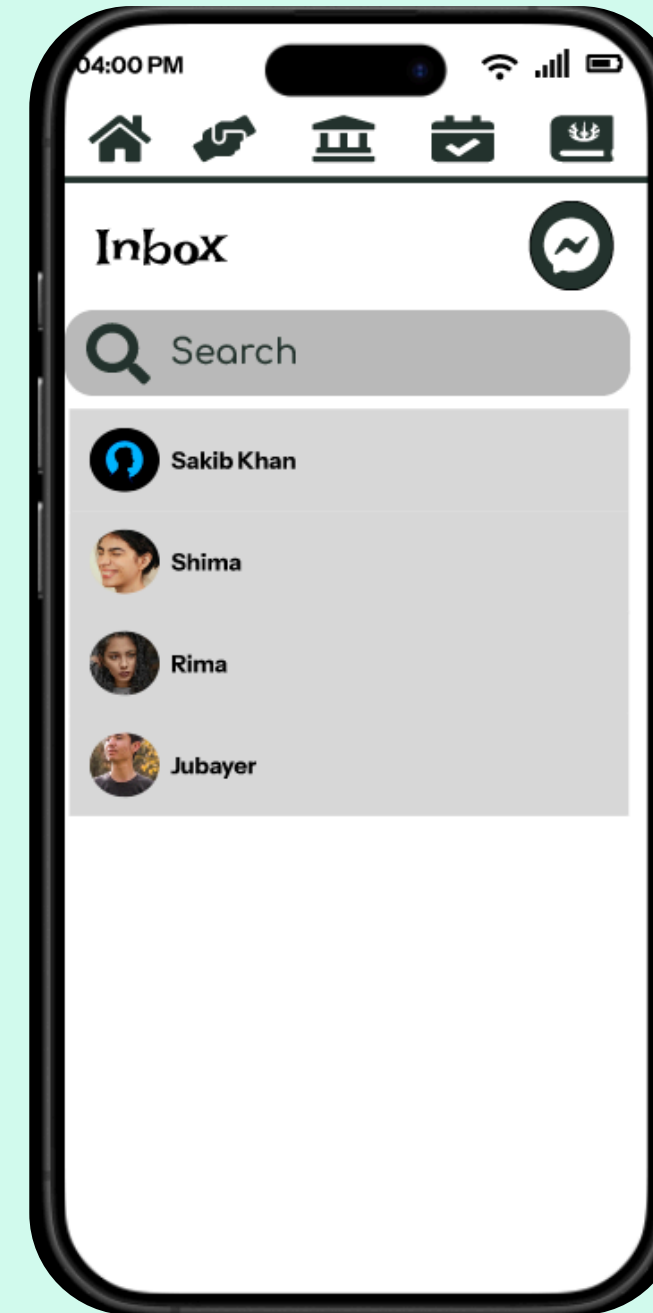

- Personal details, profile/cover photo, post stats.
- Upload DIY content with image and caption.

Key Features

Messaging System:

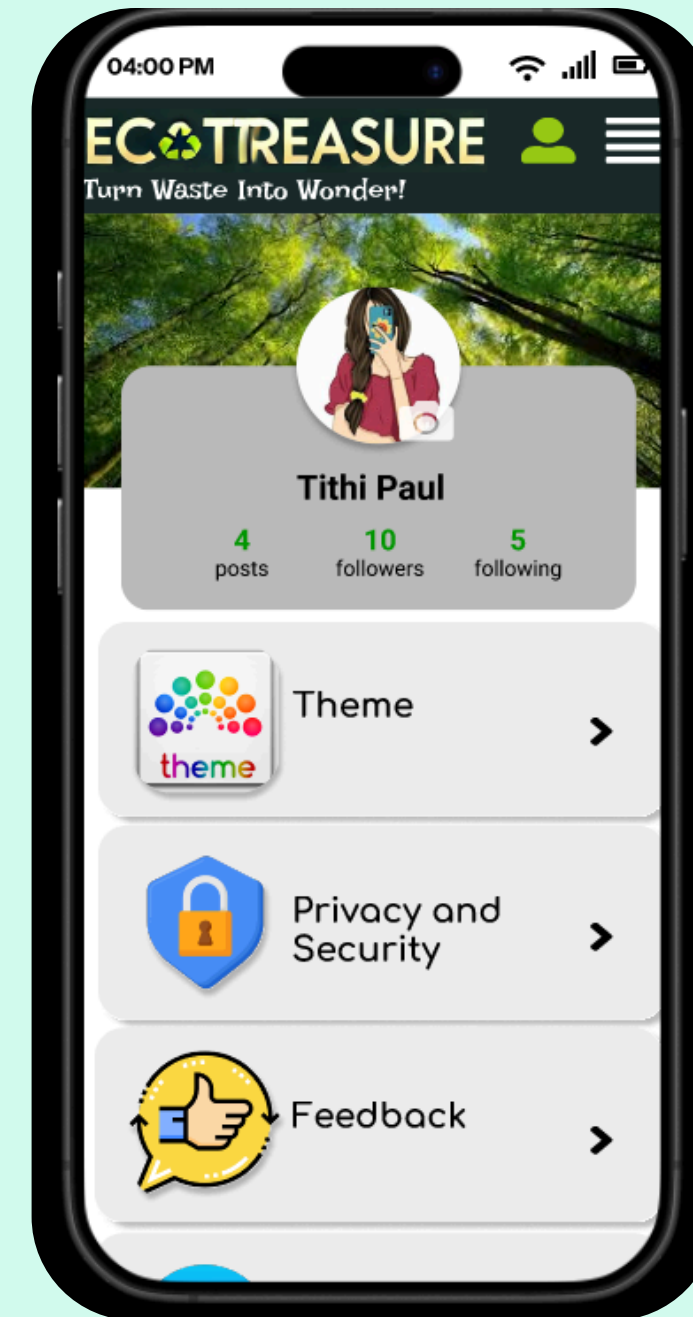

- Connect with other users.

Key Features

Settings Page:

- Customize theme, manage privacy, change password.
- Submit feedback and learn about the app.

User Research & Survey Insights

- **Participants:** 30 users
- **Key Findings:**
 - 85% want to learn new upcycling ideas.
 - 70% are interested in selling DIY crafts.
 - 90% agree that an app would help promote eco-habits.
- **Preferences:** Visual tutorials, event notifications, and community space.

Graphic Design Evaluation

1. **Alignment:** Mostly good; adjusted in tutorials.
2. **Contrast:** Improved for icons.
3. **Hierarchy:** Clear in most pages.
4. **Balance:** Adjusted content in Settings/DIY pages.

Business Model

- **Revenue Streams:**

- Ad support for eco-products
- Premium seller accounts
- Partner shop promotions

- **Value Proposition:**

- Platform for sustainable creators
- Local eco-business discovery

Future Work

1. Post-Sell Prompt (Market or not?)
2. "Sell Now" Button in Profile
3. Real-time Notifications
4. AI-generated suggestions for upcycling

Conclusion

EcoTreasure helps people turn waste into useful things. It supports creative ideas, connects eco-friendly users, and spreads the habit of recycling. The app is easy to use and makes learning and sharing upcycling fun. In the future, it will have more features to make it even better. Let's work together to make our world greener!
